

Assembly Instructions

Important before assembly:

Read these instructions carefully before assembling or using the product.

Please check the contents of the boxes before attempting to assemble this product. The instructions will have a checklist of parts and fittings.

Assemble the product as close to its intended final location/room as possible.

Health & Safety:

This product or some parts of this product will be heavy. Please use an assistant when lifting.

Please keep small parts out of reach of children.

Always use on a level, even surface.

DO NOT jump on the product or any of its parts.

DO NOT use this product if any parts are missing, damaged or worn.

DO NOT use this product unless all fixings are secured.

Further instructions are on the following pages.

Please keep these instructions for future reference.

This product or some parts of this product will be heavy. Please use an assistant when lifting.

Never drag or push the pieces across a hard or stone floor as this will cause damage to the joints. Use a carpet or a rug for extra care.

If you have problems assembling or have damaged or missing pieces, please contact our customer services (details at the back of these instructions)

Important for Ottoman and other gas lift beds

Note:

The bed base is in the upright position when first assembled as the gas lifts are fully extended during shipment for safety. After assembly a firm downward push will be required to overcome any resistance in the gas lifts as these may initially stick. We suggest placing a mattress on top of the bed base to aide this and also test the operation of your new lift up bed by lifting and pushing down the bed base a few times to allow the lifting mechanism to bed in.

The lift mechanism provides assistance with the lift of the mattress fitted to the base. It does not lift the mattress for you. The system has been designed to effectively lift the base system fitted with a variety of mattress weights and combinations of depths. Depending on the combination of the mattress weight and depth determines the degree of assistance provided by the mechanism.

Following the installation of the mechanism lift, pull the base up and down a few times to free off the system. The gas cylinders fitted to the system may be stiff when first used or if the system has not been operated for a period of time.

Use the strap handles to lift up the mattress base using two hands. Pull the mattress base down using two hands equally spaced from the centre of the mattress base. DO NOT pull down on one side of the base only as this is likely to damage the base system with potential failure of the mattress base system and lift mechanism.

Do NOT operate the lift up mechanism without the mattress placed on the base.

Caution:

Do NOT allow children to operate the lift mechanism.
Do NOT allow children near the lift base when operating the mechanism.
Do NOT allow children in the area of the internal storage base.
Keep hands clear of the mechanism when operating the base system.
Do NOT stand inside the bed or the internal storage base.
Do NOT overload the internal storage base.

Box 1

H. Slats (x26)

T. Bed Cross Bar (x4)

A. Headboard (x1)

W. Front and Back Frame Rail (x2)

X. Cross Support Bar (x2)

Box 2

B. Side Rails (x2)

C. Centre Support Rail (x1)

D. Left & Right Frame Rail (x2)

F. Footboard (x1)

G. Support Leg (x1)

I. Legs (x4)

Q. Slat Caps (x26)

R. Centre Slat Caps (x13)

E. metal hook (X2)

B1. Baton (x1)

V. corner bracket (X4)

U. Pull Strap (x1)

O. M5 Allen Key (x1)

P. Spanner (x1)

C1. M4 Allen Key (x1)

M. Flat Washer (X8)

N. Spring Washer (x8)

K. Nuts (x12)

L. M8x45mm Bolts (x4)

Cont...**

Y M6x16mm Bolts (x16)

S. M8x40mm Bolts (x6)

J. M8x30mm Bolts (x8)

Z. M8x16mm Bolts (x4)

A1. M8x65mm Bolts (x4)

BOX 3

D1. Support Board (X2)

E1. Support Board (X2)

Step 1

Unpack all components from the boxes and check you are not missing anything. Please check these against the list on page 3 & 4. Should you identify any missing components, please contact the retailer you purchased the bed from.

Step 2

Attach 2x Legs (I) to the 1x Headboard (A) and then attach 2x Legs (I) to the 1x Footboard (F). Please do not use any power tools for this assembly as it will void your guarantee.

Step 3

Attach 2x Side Rails (B) to 1x Headboard (A) and 1x Footboard (F) using 8x M8x30mm Bolt (J), 8x Spring Washer (N), 8x Flat Washer (M) and 1x M5 Allen Key (O).

Step 4:

To attach the corner bracket (V) to the headboard(A), footboard(F) and side rails(B) you will need to use hardware parts 8X M6x16mm Bolts (Y) and the M4 allen key(C1).

To fix the 4 X bed cross bar(T) to the side rails ,you will need to use hardware 8X M6x16mm Bolts (Y) and the M4 allen key(C1).

DO NOT use any power tools as this may damage the bed frame and will invalidate any claims.

Step 5:

Fix Support Boards 2X(D1) and 2X(E1) to above the Bed Cross Bars (T)

Step 6

To attach the front frame rail(W)and back frame rail (W) to the left frame rail (D)and right frame rail(D), you will need hardware parts 4 X M8x16mm Bolts (Z) with the M5 allen key(O).

To attach the centre support bar (C) to the front frame rail(W)and back frame rail(W),you will need hardware parts 4X M8x40mm Bolts(S) and 4X Nuts (K) with the M5 allen key(O) and the spanner(P).

To attach the support leg (G) to the centre support bar(C),you will need hardware parts 2X M8x40mm Bolts(S) and 2X Nuts (K) with the M5 allen key(O) and the spanner(P).

Insert the metal hook(E) to the front frame rail(W).

DO NOT use any power tools, this may damage the bed frame and will invalidate any claims.

Step 7

To attach the metal frame(W/C/D) and cross support bar(X)to the gas lift pre-fixed to the side rails, you will need to use hardware parts 4X M8x65mm Bolts(A1) , 2 XM8x45mm Bolts(L) and 6x Nuts (K) with the M5 allen key(O) and the spanner(P).

To attach the Baton (B1)TO the footboard(F) you will need to use hardware parts 2xM8x45mm Bolts(L)with the M5 allen key(O) .

Step 8

Slot each Slat Cap (Q) onto the end of each Slat (H), then slot each Slat (H) into each Centre Slat Cap (R). Press firmly into each slat rail located on the inside of the side rails (B) and then into the Centre Support Rail (C).

Important for Ottoman and other gas lift beds

Please follow these final steps to ensure the best experience with your new bed

- Please ensure the pistons are fitted to the bed frame.
- Please place the mattress on top of the bed frame.
- Standing at the foot of the frame (looking at the headboard) open the base and the press quite forcefully down on the mattress - please do not attempt to do this without the mattress being in place.
- Please do not pull on the strap handles.
- Please note as the pistons are full of gas - you will need to press heavily to release the compressed gas.
- Once done the pistons should start operating as normal.

Please dispose of all packaging safely.

General Care & Maintenance

Wipe clean with a slightly damp cloth.
Avoid the use of all household cleaners and abrasives.

Periodically check all screw & fixings to ensure they are secure.

When moving your product, carefully lift into place. Never drag or push the product across the floor as this will cause damage to the joints. If the product is used on hard flooring, such as wood or laminated floor, you must place some protection under the legs to stop the product from moving. If this is not adhered to, it could result in failure to the product that will invalidate the warranty.
